

As Reliable as the Sun

Arrow Panel Wireless Controller

Ease of Installation

With no wiring running into the cab, installation is quick, clean and hassle-free.

User Flexibility

Minimal wiring makes moving the panel from one vehicle to another a snap.

Enhanced User Safety

Messages can be easily changed without exposure to passing traffic, minimizing risk to the driver/operator.

Secure

Each controller is paired with a specific arrow panel, meaning no crossed signals and a hack-proof design.
