## Silent Sentinel Arrow Boards

**Now talk to your SolarTech Arrow Boards... for FREE!**

We've added a modem, GPS and free cellular service for the life of your arrow board.

It's an industry first, and it's available now as standard equipment on every SolarTech Message and Arrow Board. Here's how free remote communications helps you:

- \* View a permanent record of what was on each board and when
- \* Monitor battery voltage from your desk or smartphone
- \* See location of boards using GPS coordinates
- \* Get email notifications if a board moves
- \* Change arrow patterns remotely

SolarTech boards make ITS a possibility today. Not ready? No worries. Its installed and ready when you are. No need to add modems and GPS chips later. And – bonus! – **never pay for cellular service** for the life of the board.

To start using remote access, download

**Download latest Command Center software**

**Download Command Center from this link**

It's advanced technology. Available now. Only from Solar Technology.

Due to differences in cellular technologies and cost, remote access is only available in the USA.

**1. Download the Command Center software from the Solar Technology website. The path is: [solartechnology.com/products/arrow-boards](http://solartechnology.com/products/arrow-boards)**

Note: If you do not already have Java installed, you'll need to download that first. Links to download both Command Center and Java are also on the Command Center page.

**2. Call the Solar Technology Support Team at 1-800-475-5442 ext. 4990 (or ask for John K) to set up your account. We'll ask for the following:**

ORGANIZATION NAME – your company

YOUR NAME – whomever will be accessing the account

YOUR EMAIL – as backup way to reach you

PASSWORD – you can choose, or we will assign one

**3. Once your account is setup, just login to use the system... you're ready to go!**

You can also access the system from your smart phone without downloading the software. Go to [m.solartechnology.com](http://m.solartechnology.com) and login to access your account from the road.

NOTE: You can download Command Center onto your office or home pc\*, and login using your account information to work remotely.

\* Command Center works on Windows and Linux pcs, but not yet on Macintosh.

Any other questions? Call our Support Team at **1-800-475-5442**  
We're happy to help! Support info is also at [www.solartechnology.com](http://www.solartechnology.com)
