A BETTER BOARD

COMMAND CENTER SOFTWARE

Our **fleet management solution** is designed specifically for traffic safety equipment. No need to leave your office to manage your boards. **Locate and control all your units at once from your PC, laptop or mobile device!**

Remote diagnostics can be completed through the software, saving you time and trips to the work zone. With our remote communications package, boards come with a GPS receiver, a cellular transceiver with free cellular service and access to Command Center.

Create and schedule messages for your boards individually or in groups.

Automatic notification via text alerting you to:

- Low battery
- Sign Panel Error
- A unit has moved...and more!

SUPPORT GUIDES IN THE COMMAND CENTER APP

You have never experienced an app like this! Not only can you **access, track and control your boards** from this app, but you also have an **entire library of support guides and videos** available to you 24/7!

Access short tutorials and quick instructions to set up your board, manage messages, change a photocell, replace parts, charge batteries, recalibrate the touchscreen, and so much more.

All at your fingertips!

POWER LIFT & ROTATE MODELS

With a simple press of a button (on the touch screen controller) the **board telescopes on a lift and rotate** mast to the required height.
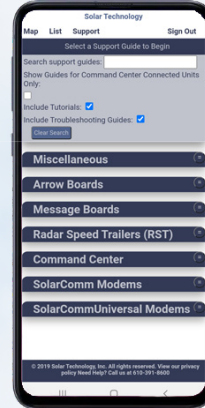

The board can also be rotated for optimal visibility.

SURFACE MOUNT LEDS

Benefits include:
- Durability
- Reliability
- Interchangeability

TOUCH SCREEN CONTROLLER

SolarTech's Mega-Tech Touch Screen Controller is so easy to operate... you don't even need a manual!

The **interactive touch-screen** offers a full color **10.4 inch LCD display**. The controller also comes with a plug-and-play connection to ITS networks.

The **graphic-driven menus** allow you to select from preprogrammed messages - or create your own, as well as schedule, change and store messages.

FULL MATRIX DISPLAY

You'll definitely see the difference! Full matrix boards are **legible from a greater distance**, improving safety for both drivers and workers.

There is **more flexibility** with a full matrix board. Messages are displayed over the entire board:

▪ **One to four lines of text**.

▪ Both **text and graphics** can be displayed on the same message!

BETTER CUSTOMER SERVICE

SolarTech offers **live support through our customer service line!** Have a question that is not answered in the App? Call us! **610-391-8602**

WARRANTY

SolarTech products are backed with a comprehensive **5-year limited warranty**!

This covers all equipment and components manufactured by SolarTech, and purchased for U.S. Domestic and Canadian use.

Our products are built to last, keeping repair and return costs low and customers happy.

BETTER TRAILER

▪ Constructed from welded 7-gauge formed steel plate and structural steel tubing.

▪ Painted in two-part system, consisting of a polyamide epoxy primer and a high-gloss urethane finish.

▪ Equipped with an independent suspension, torsion axle with a load capacity of at least 3,400 lbs.

▪ 13 inches of ground clearance.

RUGGED DESIGN & QUALITY

SolarTech products are built to last. Our boards meet or exceed the standards for Portable Changeable Message Signs as listed in the U.S. Federal Highway Administration (FHWA) Manual on Uniform Traffic Control Devices (MUTCD). When you purchase SolarTech products, you are guaranteed they are:

▪ Built on a **sturdy steel frame.**

▪ Equipped with an **independent suspension** with a load capacity of at least 3,400 lbs.

▪ Able to **sustain winds in excess of 80 mph** with the sign panel in a raised position.

EASE OF SERVICING

Our units are as close to maintenance-free as you can get.

▪ No tools required.

▪ Control Console, EMS and display modules are all removable for repair/swap-out.

▪ Repairs can be easily made on-site, no need to bring the board back to the shop!

QUALITY ASSURANCE

We are **ISO 9001:2015 Certified**, with a Quality Management System in place to assure our manufacturing and business processes meet the highest standards.

AVAILABILITY

Many of SolarTech's products are **in stock-right now**!

▪ Available through **factory stock** or **consignment**.

▪ **Short lead time** for products not currently in stock.

▪ **Customization available**.
