Arrow & Message Boards

PRODUCT GUIDE

Vehicle Mounted

Solar Technology offers multiple mounts in various sizes for any vehicle in your fleet. All mounts come with choices for operation: manual or powered. Signs can be powered either by using battery power from the vehicle, or by using dedicated batteries. Optional solar panels can also be ordered.

All mounts and signs come with Solar Technology's unbeatable 5 Year Warranty. Talk to your Solar Technology rep to configure the right sign, mount and base combination for your application.

SCAN ME

Vehicle mounted signs offer flexibility to DOTs, municipalities, contractors and traffic safety houses by providing a wide array of signs and mounting options, enabling customization for any vehicle:

- ▶ Crash attenuators - Trucks or Trailers
- ▶ Stake body/Flat Beds
- ▶ Pickup trucks
- ▶ Utility vehicles
- ▶ Dump trucks

MOUNT OPTIONS:

FIXED MOUNT - The sign mounts flush to vehicle and does not fold.

PIVOT MOUNT - Our most versatile option, used on any vehicle. Powered by vehicle or dedicated batteries.

LOW PROFILE PIVOT MOUNT - Used with 30" x 60" message or 30" x 60" and 36" x 72" arrow signs only. Sign folds compactly.

CENTER PIVOT MOUNT - Our most economical mount. Sign pivots at center of crossbar.

BASE OPTIONS:

SKID - Available in various heights.

BED RAIL - Adjustable to fit any pickup truck bed rail with a 55 - 72" width.
