

Arrow Panel Wireless Controller

PRODUCT GUIDE

EASE OF INSTALLATION

With no wiring running into the cab, installation is quick, clean and hassle-free.

USER FLEXIBILITY

Minimal wiring makes it easy to move the arrow panel and controller from one vehicle to another.

ENHANCED USER SAFETY

Change messages from inside the vehicle - without stepping into traffic - helping reduce risk to driver/operator.

SECURE

Each controller is paired to a specific arrow panel, preventing crossed signals and providing secure, interference-resistant communication.
